

REMARKS

In the above-referenced Office Action the Examiner identified a restriction election requirement for what he believed to be separate embodiments of the disclosed invention, Group I (Claims 1 through 14) and Group II (Claims 15 through 20). Applicant chooses to elect Group II for prosecution on the merits, and directs the Examiner to cancel the claims identified as Group I.

If the Examiner has any questions about this response to the restriction requirement, please contact the undersigned attorney.

Respectfully submitted,

Anastasia Heffner
